SUMMARY

Software Engineer with 2+ years of professional experience in software development and full-stack and frontend web application development. Holds a BSc (Hons) in Information Technology, specializing in Software Engineering. Experienced in designing, developing, testing, and maintaining web applications using React.js, Node.js, Python, Flask, PHP, JavaScript, MySQL, MongoDB, HTML, CSS, and Bootstrap. Skilled in RESTful API integration, database management, debugging, troubleshooting, Git version control, and Agile methodologies. Strong problem-solving skills with a passion for building scalable, user-focused software solutions while continuously learning emerging technologies.

WORK EXPERIENCE

Jacques Technologies , Junior Software Engineer

2024 - 2026

- Developed and maintained web applications using Python, Flask, jQuery, JavaScript, HTML, CSS, and Bootstrap.
- Implemented backend architecture, ensuring scalability, security, and efficient data processing.
- Configured and managed VMware vSphere to perform system setup, troubleshooting, and network optimization.
- Utilized Git and Gerrit for version control, conducted code reviews and resolving merge conflicts to maintain code integrity.
- Delivered projects, including feature enhancements and bug fixes, while meeting deadlines and quality standards
- Collaborated with international teams to align software development with organizational objectives and managed issue tracking and documentation using Redmine, ensuring transparency and timely updates.
- Applied Linux administration skills for deployment and environment configuration.

CADD Centre Lanka, Associate Software Engineer

2023- 2024

- Produced and contributed to responsive web applications using MERN stack and microservice architecture.
- Deployed and tested applications using Azure Virtual Machines.
- Used GitHub for version control and Postman for API testing.
- Participated in client meetings, requirement gathering, and project demonstrations.
- Led a development team and coordinated project activities.
- Followed Agile methodology for software development processes.
- Improved skills in communication, teamwork, leadership, and time management.

Ewis Career Training Centre, Intern Software Engineer

2023-6 Months

- Fixed bugs and devised UI enhancements in existing PHP-based web applications.
- Worked alongside on the development of a healthcare system using MERN stack.
- Engaged in client meetings for requirement gathering and project discussions.
- Architected system diagrams, prototypes, and technical documentation.
- Utilized GitHub for version control and followed Agile development methodologies for development.
- Involved in daily stand-up meetings, improving communication, teamwork, and time management skills.

EDUCATION

BSc. (Hons) in Information Technology

Sep 2020 - Sep 2024

Sri Lanka Institute of Information Technology

- Specialized in Software Engineering.
- Completed with a Second Class.

Higher National Diploma in Information Technology

Sep 2020 - Sep 2022

Sri Lanka Institute of Information Technology

TECHNICAL SKILLS

- **Programming Languages:** JavaScript, Python, PHP
 - **Frontend Technologies:** React.js, HTML5, CSS3, Bootstrap, jQuery, Ajax
 - **Backend Technologies:** Node.js, Express.js, Flask, Rest APIs
 - **Databases:** MongoDB, MySQL
 - **Software Engineering Concepts:** Object-Oriented Programming (OOP), SDLC, Debugging, Software testing, Microservices Architecture, Agile Development, Scrum
 - **Tools:** GitHub, Gerrit, Postman, Redmine, Visual Studio Code, Git, Playwright
 - **Cloud & Infrastructure:** Azure Virtual Machines, VMware vSphere, Linux
 - **UI/UX Design Principles:** Figma
 - **Courses:** Introduction To AngularJS, AI in Digital Marketing, Java Programming, AI for Beginners, Agile Project Management, Introduction To Git
-

PROJECTS

Student Enrollment Management System

[GayaniWeerasinghe/Student_Enrollement_System](#)

- Delivered a full-stack student enrollment platform using React.js, Node.js, Express.js, and MongoDB.
- Optimized the user interface with responsive layouts, search, filtering, and pagination capabilities.
- Established RESTful APIs to facilitate communication between frontend and backend components.

E-Commerce System

[GayaniWeerasinghe/E_Commerce_Full-Stack-App](#)

- Constructed a complete e-commerce platform using MERN stack.
- Applied authentication, shopping cart, product management, order processing, and payment integration features.

Food Ordering System

[GayaniWeerasinghe/FoodOrderingApp](#)

- Built an online food ordering application using MERN stack.
- Created customer and admin modules with real-time order management features.

E-Commerce System (PHP)

[GayaniWeerasinghe/E-Commerce_Website_PHP](#)

- Engineered a complete e-commerce platform using PHP and MySQL.
 - Crafted authentication, shopping cart, product management, order processing, and payment integration.
 - Included a dedicated admin panel for system administration and management.
-
